Bidders please note:

1. Bidding normally starts in the auction room and the lot will be adjudicated ignoring the Internet unless an Internet bidder has been recognised before the last price is reached.
2. Please click on the bid button as early as possible for your FIRST BID in the bidding as it may take a moment to connect via the server due to the different Internet connection speeds around the world. Once your bid is relayed the auctioneer notes an Internet presence and will delay the bidding at the end giving you a chance to finalise your bid.
3. When and only when there is an Internet bidder the display will show GOING GOING GONE! in sequence confirming the end of the bidding. You must get your final bid through at the moment of the display of the first GOING.
4. Sometimes several Internet bids may be made at the same moment. The server accepts the first bid received and ignores the others at the same price. This explains why you may have bid but the next bid is NOT for you. Please bid again immediately.
5. Every Internet bidder is automatically awarded a credit limit of CHF 20'000 or equivalent in €. If more is required before the sale just send us an E-Mail at: "accounts@davidfeldman.com" mentioning the new desired credit limit. BRITISH, NORWEGIAN & FRENCH ISSUES

INTRODUCTION TO THE BRITISH CONSULAR MAIL ISSUES

During the 19th Century "Scramble for Africa," Madagascar, despite being roughly the same size as all of France, was not considered much of a prize - no obvious mineral deposits to exploit, difficult access to the interior, a fierce royal family of the Kingdom of Imerina that dominated several smaller surrounding kingdoms (and eventually absorbed them). But the mission David Livingstone expounded as the Colonial Duty, to bring the "three C's of Commerce, Christianity and Civilisation" to Africa, was fulfilled in part by the Norwegian and the British missionaries, whose stations were located in the vast interior, and by the French, whose mail packets linked the port of Tamatave (and later other coastal towns as well) to the outside world via Natal, Réunion, the Seychelles or Zanzibar.

As there were no roads on the island until about 1900 (when railway construction began as well), communication between the capital, Tananarivo (soon renamed Antananarivo) and the mission stations or the ports depended on a system of runners using established footpaths. As in Uganda in this period, the runners expected to be paid for their services. And the French needed to be paid for those letters they carried that could not be sent collect.

The British Vice-Consul at Tananarivo was responsible for collecting from the senders (sometimes months after the fact) and remitting to the French. In 1884, the newly-appointed British Consul at Tamatave, W.C. Pickersgill, (consul as well for Sweden & Norway), organized the British Consular Mail. He had the local British mission press produce a set of "labels" which were sold to pre-pay the charges internally (between missions or just to the coast) or all the way to the destination overseas. Each label thus incorporated the cost of running the mail over 350km to or from Tamatave.

The labels of both the First and Second issues were gummed only at one corner, and were affixed to the envelopes only until they reached Tamatave, where the British consular agent removed them prior to turning the mail over to the French for onward transmission. The French fees were still debited to the British Consulate, which in theory had already collected from the senders by means of the sale of the labels. According to the late Robson Lowe, there were only four covers known still bearing labels, one of which was destroyed and the others generally considered

to be faked. Before we delve into some of the details of the British Consular issues, please note there are several common factors:

PAPER: All were printed on thin, inferior wood pulp paper most closely resembling newsprint. Because of its soft surface and low density, it thins on the slightest pretext, even with careful hinging, and we estimate that at least 80% of surviving examples are thin, even if only slightly. Great care should be exercised when removing old hinges, erasing pencil notations or other handling. The paper also provides a welcoming home for both bacteria (which cause the problem known as "foxing") and for toning due to exposure to smoke or sunlight.

GUM: a dab of gum, probably of local gum tree origin, was applied usually to the top left or top right corner of each stamp (often slightly overlapping the adjacent). Rarely, the gum can be found at the bottom right or left, and still less frequently at a top and a bottom corner.

CONTROL HANDSTAMPS: Two different circular handstamps were applied as controls or validations, one reading "BRITISH VICE-CONSULATE / ANTANANARIVO" and with large central British Arms, and another reading "BRITISH / CONSULAR / MAIL / ANTANANARIVO" with smaller central Arms. Each of these was struck in black and in violet, and the second also exists in red on the 3d and 4½d of the first type of the second issue. A very few examples of the second issue reached collectors with these handstamps omitted (11 different are recorded by Gibbons).

This auction catalogue follows on the heels of the dispersals of the Frederick Mayer and Dr. Gene Scott collections, and is noteworthy for the following distinction: it references, for the first time to our knowledge, the **two distinct types of rouletting** found on the second issue!

Since the accurate cataloguing of stamps must be based on apparent distinctions, lack of prior notice of this important and evident variation, and the relative scarcity of the combinations, leaves open the possibility of further catalogue numbering (or sub-numbering) for these issues. After all, if the stamps of Finland or Thurn & Taxis or Wurttemberg are distinguished by type and/or frequency of the roulettes, why shouldn't the stamps of Madagascar be treated likewise?

FIRST ISSUES

A notice in the *Madagascar Times* (the British newspaper printed in Antananarivo) in March 1884 stated that "postal franks" could now be purchased at the Vice-Consulate for pre-payment of postal services. The rate for a letter was 2d for each 15 grams (about $\frac{1}{2}$ oz.) for the runner service charge to Tamatave, plus postage to the destination (which could be prepaid in French Post Office stamps). Printed matter or parcel rates were 1d per 1 oz. runner charge plus onward postage. Thus, a $\frac{1}{2}$ oz. letter was prepaid with a 6d adhesive (2d runner charge + 4d foreign mail postage), while a 1 oz. packet cost 4d (1d runner charge + 3d postage). Stamps were produced for both **inland** use (paying runner charges only) and for **foreign mail** (runner charge + postage).

The stamps were typographed on the press of the British mission at Antananarivo (analogous to the British missionaries' printing of the Uganda Typesets at a later time). The Robson Lowe *Encyclopedia* ... tantalisingly gives the printing format as sheets of 8 (two rows of four) while the Gibbons catalogue gives "horizontal strips of four." The plating and extant multiples clearly show four subjects, but the possibility exists that sheets were printed using the "print and turn" method, giving two strips head-to-head on one sheet of paper, later guillotined prior to sale; thus, both citations above would be correct, though no printing sheets or tête-beche items have survived to confirm this.

Most of the local printings were done in magenta ink on the rough wove newsprint-type paper; one value (6d; SG n° 11) was printed in red in 1886. The letter rate stamps (both internal and to overseas) were inscribed "LETTER;" the printed matter/parcel rate stamps were inscribed "POSTAL PACKET." The central portion of the stamp gave the weight in ounces, while the face value was expressed in letters only.

The original 1884 issues were struck only with the "British Vice Consulate" seal in black or in violet. Inscribed "POSTAL PACKET" were values of 1d (1 oz.), 2d (2 oz.) and 3d (3 oz.) for internal use, and 4d (1 oz.) for overseas mail. Stamps inscribed "LETTER" were issued in values of 6d ($\frac{1}{2}$ oz.), 1/- (1 oz.), 1/6 (1 $\frac{1}{2}$ oz.) and 2/- (2 oz.).

Violet handstamps (as opposed to the "normal" black) were applied to the 4d Packet and 6d Letter stamps of 1884. A new printing of the 4d (1 oz.) Packet stamp in 1886 was also struck with the "Consular Mail" handstamp in both colours. Also in 1886, the 6d ($\frac{1}{2}$ oz.) Letter stamp was freshly printed in red ink, presumably because the magenta ink was no longer available.

A separate collection could be made of these issues with diagonal red inked lines. Though the Robson Lowe *Encyclopedia*... states these lines are found on "early printings," they are found on issues of 1886 as well. Gibbons states these are "cancelled to order," but that is still being debated (and in our opinion extremely unlikely).

One theory is that they were applied as controls to mail of the British Consular Service or other governmental agency, as opposed to civilian mail of the missionaries. However, it is also possible that these were applied for accounting purposes to indicate usage for mails sent under cover in one parcel to the coast, to obviate the need for applying, cancelling and later removing the stamps individually.

One provisional is readily found among these issues: the 4d / 1 oz. value with the weight altered to "4" oz. by manuscript. This provisional, usually found with red diagonal control line, presumably was necessitated by a shortage of local printed matter rate stamps of this value, whereas those for the foreign printed matter rate were little utilized. It is possible that the re-appearance of the original 4d / 1 oz. value in 1886 but with different seal handstamp was intended to protect against "unofficial" manuscript revaluation of the overseas stamp for the local rate.

Two other provisionals, 1d on 1/- (with "SHILLING" erased and "PENNY" written in red ink), and one with "4½d" on 1/- and initialled "W.C.P." (the initials of the Consul) also in red ink, with a line through the original value. These are believed unique (SG n° 9-10)

PLATING

Collectors of these issues have long noted the "open periods" or, to use the British term, "hollow stops" occurring after the letters "B" or "M" on some positions of some values.

Hollow stop after "B"

Hollow stop after "M"

Gibbons lists the values on which these occur as hollow stop after "M" for the 1/- and 1/6 values and hollow stop after "B" for the others, but adds that the former was also seen on the 2d and 3d, and the hollow stop after both "B" and "C" on the 6d. Of positions showing normal periods or "stops," some show a break at the inner frame line at left, just above the value line. Though I have noted this for only the 1d, 2d, 3d and 4d "Packet" stamps and the 6d "Letter" issue, the presumption that all of these stamps were printed from a standing form with changes to the typography as required would indicate that it should occur on other values as well.

If one were to assume that the stamps were printed by forms of four subjects, then one position of each value would show a "hollow stop" after "B" or "M," another the inner frame line break, and the other two would be relatively "normal." Gibbons posits that what can easily be proven for the Second Issue (i.e. typeset forms of two subjects) applies as well to this First Issue. If this were so, then two positions of each strip of four would show the hollow stops, and two would show the broken inner frame line, but the relative "population" of these seems to indicate that four positions had been set, not two.

USAGE

As mentioned under "common factors," the stamps were intended to be affixed at Antananarivo and torn off at Tamatave. Thus used examples are almost invariably reduced (slightly to drastically) to minimize any disfigurement. Cancellation was by means of crayon in the form of a check mark (typically) or other squiggle and (exceptionally) by the five-bar handstamp found on the Second Issues; **no date stamps** were available for the British Consular Mail.

Exceptional used examples
(lots 40045 & 40051)

SECOND ISSUES

Though some authorities have written these were produced by John Haddon & Co. of London (who in fact printed the 1895 Pictorial issues), the underlying stamps were typographed by the missionary press, in sheets of four subjects. Handstamped seals in both types used for the First Issue were again applied at Antananarivo, in three colors: black, violet and the rare red. Stamps also exist with these seal handstamps omitted; they are very elusive.

The forms used to print the stamps show evidence of at least five settings: three vary in typography of the stamps themselves, two in the types of rouletting applied between the stamps.

We should examine in turn the basic typographic elements of **TEXT** and **FRAMES**; the roulettes were part of the setting of the frames. There are three basic types of **TEXT**:

Type I: "POSTAGE" 29½ mm long; **periods** ("stops") after "POSTAGE" and the currency (i.e. "PENCE".)

Type II: As Type I but **no periods** after "POSTAGE" or currency.

Type III: "POSTAGE" 24 mm long; **no periods**.

Not all values were produced by each major setting (as a glance at any standard catalogue will show). The combination of rate and weight expressed by the first issues was abandoned in favour of denominations alone, from 1d through 2/-.

FRAMES

The red frames around the text were composed using standard border type, which showed some minor damage, dents, wear, etc. which enables positions of the printing formes to be readily identified. Each sheet of four subjects was printed from a forme of two subjects, repeated twice. Thus a type flaw found at position 1 will repeat at position 3, and so on. So one can speak of the positions of the form as "left" and "right" as well as "1" or "2".

The border elements for the **right** position (sheet positions 2 & 4) stayed relatively constant throughout the printings of all three text types.

Top and bottom left corners of the RIGHT frame (sheet positions 2 & 4)

The frame of the left position, however, varies somewhat from text type to text type, and even within the total print run of any given text type. The variations will be discussed further below.

SEPARATION was effected by means of vertical rouletting incorporated in the printing forme for the frames. Contrary to the description given in the standard catalogues, that rouletting consists of "short colored lines," the truth is more complex. For the earliest sheets printed, the roulettes were nearly colourless *percé en arc* at both sides (or at one side with the other having the natural straight-edge of the paper). Subsequently, one side showed the coloured short-lines roulette on one side and the *percé en arc* roulette on the other. Finally, the sheets were rouletted completely with the short coloured lines.

Hitherto, no catalogue or handbook has mentioned the *percé en arc* roulettes on one or both sides of text type I stamps, though we have seen a few dozen examples of the former and fewer than ten of the latter. Examples of the *percé en arc* on both sides can be seen as lots 40086, 40088, 40094 (a sheet of 4!), 40096 and 40100-101.

The uncatalogued distinction between different roulettes would not have been neglected if these stamps were as common as those of the German States or Finland !

For the purposes of this auction catalogue, we refer to roulettes as:

Roulette I: *Percé en arc* at both sides, or on one side with the other imperforate

Roulette II: *Percé en arc* at one side, the other rouletted in short coloured lines

Roulette III: Rouletted in short coloured lines on both sides, or on one side with the other imperforate

The table on the next page shows which values exist in which combinations of stamp and roulette types, seal types and colours. Given the complexity of the variables involved, a "complete collection" is well-nigh impossible, though a representation of all text and roulette types as well as all values is more attainable.

TEXT TYPE I

The first sheets produced undoubtedly showed rouletting *percé en arc* at the center and the right side of the frame forme of two subjects. Stamps which show this on both sides are among the rarest of the Consular Mail issues, while those showing this only on one side, with the other imperforate, can still be distinguished by this fact alone from later printings.

At some point, printing was halted and rouletting in short coloured lines was inserted at the right edge of the form, appearing to the right of positions 2 and 4 of the finished sheet. These early printing stamps were all of Type I (Types II and III are not known with *percé en arc* roulettes), with "POSTAGE" measuring 29½ mm and with periods after "POSTAGE" and the currency (e.g. "PENCE."). Thus the earliest printings can be considered to comprise any Type I stamps with *percé en arc* roulettes at one or both sides.

The first printing includes the 4½d value, with red handstamped "British Consular Mail" seal (reportedly five or fewer examples, all used, are known). Also, as noted in the chart, both of the two higher values in Type I were produced as part of the early printings; only the five low values were additionally printed with coloured-line roulette at both sides.

Besides the location of the different rouletting types, another way to distinguish these early printings is by typography of the **FRAMES**. Stamps from the subsequent printings of Type I show distinct breaks or flaws in some of the outer coloured border elements of both positions, absent in the earlier printing, but continuing on (at other locations) for stamps of Type II.

The plating of the left position frame of Type I stamps shows three variations: the first shows a broken top left corner. At some point, this was replaced, but breaks developed in the outer arch of the right center border element. Finally, this too was replaced, but the inner right part of the bottom border element to the right of the center appears broken. This last can also be noted on some stamps of Types II (but not for all values, indicating that this defect was corrected for part of the Type II printing).

Notes: 1. Also exists with red handstamped seal, Type B, on stamp Type I, roulette I

TEXT TYPE II

"POSTAGE" and value line at bottom same as Type I, but without "stops." Six values were produced, from 1d to 6d (the 6d was produced only in Type II). Roulette type III (short colored lines at both sides). Sheets of this value confirm printing from two "plates" or formes of two subjects; the distance between the words "POSTAGE" is the same between positions 1 & 2 and 3 & 4 but can vary slightly between pairs of positions 2 & 3. The stamps were struck with the Vice-Consulate seal in violet only, and the Consular Mail seal in black and in violet, known for all six values.

Unlike Type I stamps, where the red (border) print is key to determining plate position, the black print on Type II stamps serves the same purpose. Each value shows distinctions between left and right forme positions.

1d Value: Left: raised "Y" of "PENNY" - Right: normal "Y"

1½d Value: Left: final "E" of "PENCE" raised. Right: uneven "HALF-PENCE"

2d Value: Left: smaller "N" and raised "E" of "PENCE" Right: taller "N" of "PENCE"

3d Value: Left: rising "NCE" of "PENCE" - Right: "PENCE" level

4½d Value: Left: 1 st "N" of "PENNY" smaller, with left vertical stroke thin - Right: both "N" of "PENNY" normal

6d Value: Left: wide and raised final "E" of "SIXPENCE" Right: back of final "E" of "SIXPENCE" thin

The red print of the stamps also shows variations; for example, the large "6" of the 6d value shows uncoloured spots in positions 2 & 4 of the sheets (printing forme right position).

TEXT TYPE II

The word "POSTAGE" is much shorter (24½mm) and there is a period after the value line. Used to print five values. The 4d and the three Shilling values (1/-, 1/6, 2/-) were only printed in Type III; the 8d was also produced in Type I. Known with violet Vice-Consulate seals, and violet and black Consular Mail seals.

Note that for the left position of the red printing form, the bottom frame element on the right side has its lower half offset inward, while for the right position, the second border element from the left at the bottom has its inner right line broken (seen for nearly all of the values). Other distinctions include:

4d Value: Left: thin "P" of "PENCE" - Right: "NCE" of "PENCE" raised

8d Value: Left: "EI" of "EIGHT" slopes downward; final "E" of "PENCE" slightly lower - Right: final "E" of "PENCE" slightly higher

1/- Value: Left: smaller, thinner "O" of "ONE"

1/6 Value: Left: lowered "CE" of "SIXPENCE" - Right: raised period after "SIXPENCE"

2/6 Value: Right: thinner 1 st "L" of "SHILLINGS"

Note that for all the "London Printings," poor printing technique resulted in partial doubling (so-called "kiss" doubling) of portions of the black print, most evident in the black value lines which often show a "ghost" a little offset upward. This is to be considered normal, but dramatic examples of this may be worth a premium.

SUPPRESSION OF THE ISSUE

In 1887, only three years after the British Consular stamps were introduced, the new British Consul, J.G. Haggard, had his fill of requests from philatelists for examples, and ordered the issue suppressed, in the words of Robson Lowe, "in spite of its many advantages as regards accountancy." The mails reverted to the complicated system in use prior to 1884, with letters and parcels prepaid in cash at Antananarivo and carried by runner to Tamatave for handing over to the French P.O. there. The handstamped seals continued to be struck, however, now directly on the covers, as a form of control.

EARLY POSTAL HISTORY

BRITISH MISSIONARY MAIL

The LONDON MISSIONARY SOCIETY ("L.M.S.") started its work in Madagascar in 1818. By the 1880s, they had five principal mission stations in the inland portion of the country. Although the date that a regular mail service was established is not known, by the 1870s there was a system using native runners that connected the inland missions with the coast. In the 1880s, a service connected the capital, Tananarivo (later Antananarivo), with the east coast port (and British Consular seat) of Tamatave. Mail from the outlying British missions was usually bagged at Tananarivo. Mail charges were assessed by the British Consul's office and paid both for the "runner service" to Tamatave, and the fee for onward transmission from the port to destination via Mauritius, Reunion or Zanzibar.

MADAGASCAR - EARLY POSTAL HISTORY (CONT.)**ROYAL MAIL**

Neither the Kingdom of Imerina nor the other regions of Madagascar had any postal administration. A Royal Messenger Service was introduced in Imerina in 1790, utilising runners on an ad hoc basis. By 1828, a corps of runners linked the capital, Tananarivo (Antananarivo) with the port of Tamatave on the east coast, with Fianarantsoa in the south central region, and with Maevatanana in the central north. During the reign of the last Queen, Ranavalona III (1883-97), pre-printed envelopes were used for official mail to the regional governors. In 1896, the last year of the Kingdom of Imerina's independence, the Malagasy Mail was established with a runner service from the capital to Tamatave.

In one of the few portions of Madagascar not dominated by the Kingdom of Imeria, the King of Yfassy in the far north established a runner post service in 1878 and again from 1882 which connected the mouth of the river Ifassy on the north-west coast to Vohemar on the north-east coast and onwards south to Sambava. This service linked the island of Nossi-bé (off the north-west coast) to the east coast.

BRITISH CONSULAR MAIL & ADHESIVES

1884-1895

NOTES REGARDING CONDITION:

The "Consular" Adhesives of 1884-86 were printed on a paper most closely resembling newsprint. It is a truism that once hinged, they are invariably thinned to some extent. Any defects are fully described herein, for the record, but a slight thin which does not mar the overall appearance of the stamp should not be the basis for a low bid on an otherwise rare stamp.

The used examples usually show a "bite" (or strong thin) in one corner where the stamp was affixed to the envelope it carried to the coast, there to be torn off. Sometimes these "bites" have been disguised by trimming the stamp on one or more sides. Since the used stamps were essentially mutilated when properly used, presentable examples are much scarcer than unused, a factor not fully appreciated or priced in the standard catalogues.

Finally, the diagonal red lines neatly drawn on stamps of the first issue are still controversial. Though Gibbons now calls them a form of favour cancel, no basis for this is given, and it is likely that they were so defaced for accounting purposes (possibly to account for letters sent to the coast in sealed bags). Such stamps often show the full original gum spot on one corner; thus some have classified them as "unused." We leave that decision to the bidder!

BRITISH CONSULAR MAIL (CONT.)**PREPAYMENT WITHOUT ADHESIVES (1887-1895)**

In 1887 the use of the stamps of the British Consular service were suppressed, allegedly because British Consul, J.G. Haggard, was irritated by the frequent requests of philatelists for examples, despite, as Robson Lowe put it, "its many advantages as regards accountancy." The mails reverted to the complicated system in use prior to 1884, with all letters and parcels prepaid in cash. The hand-stamped seals, including a modified one reading "BRITISH / MAIL / ANTANANARIVO" (the old seal with "CONSULAR" removed) continued in use as a form of control, until they were replaced by datestamps (as seen in lot 40160 and subsequent).

1882 Envelope to Rev. Aas in Morondava with ms in red "Kind c/o V.F.W Stanwood, Esq., U.S. Consular Agent," marked "Haster" i.e. urgent, very fine & only recorded example from this mail service

2'000

The U.S. Government Mail Service is known to have existed in 1882, but no information is available about its lifespan. The service provided that letters were sent once a month by runners from the capital to Majunga on the north coast and to Morondava on the west coast. The minimum postage to Majunga was 33 cents. As the postage for mail to Morondava was double that, it can be assumed that the letters went by ship from Majunga to Morondava and not by runners direct from the capital to the west coast.

NORWEGIAN MISSIONARY MAIL & ADHESIVES

1867-1897

The Norwegian Missionary Society established a regular postal service in 1882, linking the capital, Tananarivo (Antananarivo) with Fandriana in the Vakinankaratra region (located near the capital in the central part of the island) and subsequently extended the service to all 20 of the Norwegian missionary stations there and in Bara and in North Betsileo.

The extremely elusive adhesives for use by this service were issued in 1894 and used until 1897.

The collection presented here contains HALF of all the known covers franked by these adhesives, including the UNIQUE cover franked with a British Currency issue (lot 40238).

David Feldman SA - Conditions de Vente

La monnaie utilisée pour cette vente est l'Euro (€)

La participation dans l'une des ventes aux enchères de David Feldman SA implique une adhésion totale aux conditions décrites ci-dessous ainsi qu'aux droits et obligations qui en découlent. Ces mêmes conditions sont applicables à toute transaction en relation à des pièces ou des lots faisant partie de la vente aux enchères et conclue en dehors de celle-ci. La Maison DAVID FELDMAN S.A., organisatrice de la présente vente aux enchères, agit exclusivement comme mandataire et n'assume donc aucune responsabilité quelconque en cas de manquement(s) des acheteurs et/ou vendeurs.

1. LES LOTS SONT MIS EN VENTE

1.1 Sur la base de leur présentation dans le catalogue et/ou sur le site internet: Les lots sont décrits avec le plus grand soin sans toutefois engager la responsabilité de la Maison DAVID FELDMAN S.A. Les photographies font partie intégrante des descriptions pour ce qui est des marges, de la dentelure, du centrage, des oblitérations et de toute autre qualité apparente. La description des lots mentionne si les pièces sont signées par des experts et/ou sont accompagnées de certificats d'expertise.

1.2 Sur la base de leur examen: Tous les lots peuvent être examinés, avant et pendant la vente dans nos bureaux ou à l'endroit de la vente, aux horaires indiqués dans le catalogue de vente ou sur notre site Internet. Les acheteurs ayant examiné les lots avant la vente et/ou y participant personnellement et/ou y étant représentés, sont censés avoir examiné tous les lots achetés et les accepter dans l'état où ils se trouvent lors de l'adjudication, indépendamment de la description figurant dans le catalogue.

2. LES OFFRES D'ENCHERES

2.1 Chaque offre d'enchère doit être supérieure à celle formulée précédemment selon l'échelle suivante: (la monnaie peut changer selon la vente aux enchères)

€ 50 - 100	€ 5	€ 2000 - 5000	€ 200
€ 100 - 200	€ 10	€ 5000 - 10000	€ 500
€ 200 - 500	€ 20	€ 10000 - 20000	€ 1000
€ 500 - 1000	€ 50	€ 20000 - 50000	€ 2000
€ 1000 - 2000	€ 100	€ 50000 - 100000	€ 5000

Les offres se situant entre ces montants seront arrondies à la surenchère supérieure. L'enchérisseur est lié par son offre tant qu'une nouvelle surenchère n'a pas été valablement formulée par un autre enchérisseur.

2.2 L'huisquier ou le crieur a le droit d'avancer les enchères, de séparer, joindre ou retirer n'importe quel lot, cela à son entière discréction. La vente a lieu en français mais les enchères pourront être répétées en anglais. La Maison DAVID FELDMAN S.A. est également autorisée à enchérir pour le compte de vendeurs lorsque des prix de réserve ont été fixés. Si le vendeur fixe des prix de réserve pour certains de ses lots, il sera alors considéré comme acheteur et la Maison DAVID FELDMAN S.A. enchérira pour le compte de celui-ci jusqu'à concurrence des prix de réserve fixés. Lorsque le prix fixé par le vendeur n'est pas atteint, il sera passé à la criée du lot suivant par un simple coup de marteau.

2.3 Les offres d'enchères écrites reçues par David Feldman SA ou sur le site Internet avant la vente, sont dans tous les cas prioritaires sur les offres d'enchères faites dans la salle de vente. L'enchérisseur donnant un ordre d'enchères écrit peut faire des offres alternatives et/ou limiter le montant global de ses offres. Les offres d'enchères données "à acheter" sont considérées comme pouvant atteindre jusqu'à 10 fois la valeur de l'estimation imprimée dans le catalogue. Les enchères doivent être faites en euros. Les offres d'enchères libellées en d'autres monnaies seront converties en euros au cours du jour de leur réception par la Maison DAVID FELDMAN S.A. Toute offre écrite d'enchères est considérée comme liant son auteur pendant 60 jours après la date de la vente aux enchères. La Maison DAVID FELDMAN S.A. est donc en droit de facturer la marchandise à l'enchérisseur jusqu'à l'expiration de ce délai. Toute facture reçue par celui-ci est de ce fait valable et doit être payée immédiatement.

3. LA VENTE AUX ENCHERES

3.1 La vente en direct se déroule sous le contrôle de l'autorité compétente qui n'assume cependant aucune responsabilité. La vente aux enchères se déroule sous le ministère d'un "huissier judiciaire" de la République et Canton de Genève. La monnaie de la vente aux enchères est l'euro.

3.2 Prérogatives de David Feldman S.A.: La Maison DAVID FELDMAN S.A. est en droit selon sa libre appréciation de retirer, de diviser ou de grouper les lots faisant partie de la présente vente ainsi que de refuser l'adjudication de n'importe lequel desdits lots. La Maison DAVID FELDMAN S.A. se réserve le droit de refuser selon sa libre appréciation toute offre d'enchères et/ou l'entrée de la salle de vente à n'importe quelle personne quelle qu'elle soit. La Maison DAVID FELDMAN S.A. n'assume aucune responsabilité quelconque en cas de dommage corporel survenu sur les lieux de la vente.

3.3 Représentants et Agents de Vente aux Enchères: L'enchérisseur qui agit pour le compte d'un tiers engage son entière responsabilité personnelle en particulier en ce qui concerne toutes les obligations contractées dans le cadre de la présente vente. Cette responsabilité s'étend notamment à la vérification de la qualité des lots achetés ainsi qu'au règlement ultérieur de la facture des lots acquis.

3.4 L'adjudication: Chaque lot est adjudiqué au plus offrant pour le compte de son vendeur respectif. Des frais de 19,5% sont facturés en sus du prix d'adjudication par David Feldman SA couvrant la commission, les taxes d'adjudication, frais par lot, assurance, emballage, frais de port, frais d'exportation etc. et ceci dans tous les cas, tous frais encourus ou pas. A la tombée du marteau, les profits et risques des lots ainsi adjugés passent à l'enchérisseur dont l'offre a été acceptée. La marchandise ne sera cependant remise à l'acquéreur qu'au moment du règlement intégral du prix d'achat (prix d'adjudication plus les frais).

Exceptionnellement, pour les lots marqués d'un "#" à la fin de la description, ceux-ci sont particulièrement lourds et les frais de port sont facturés en sus et à prix coutant. Les acheteurs donnant des instructions particulières au sujet de l'expédition de leurs lots sont responsables pour leurs frais de port.

TVA (Taxe à la vente) - Note indicative concernant les ventes aux enchères dont les lots se trouvent en Suisse: Les acheteurs domiciliés à l'étranger ne sont pas soumis à cette taxe, à condition que les marchandises soient exportées hors de Suisse. DAVID FELDMAN S.A. se fera un plaisir de s'occuper de l'exportation de ces marchandises. Les clients peuvent aussi faire cette exportation par leurs propres moyens; dans ce cas, ils doivent fournir à DAVID FELDMAN S.A. une attestation dûment signée et timbrée par les douanes suisses. Toute acquisition par des acheteurs désirant garder la marchandise en Suisse est soumise à la taxe TVA de 7,6% sur le prix d'achat en francs suisses, montant converti à l'équivalent en euros pendant la vente.

3.5 Paiement: Les adjudicataires présents sont tenus de payer comptant en euros le prix d'achat et la commission contre remise de la marchandise acquise. Le paiement en d'autres monnaies est accepté au cours du jour tel qu'établi par une des grandes banques suisses. Les enchérisseurs par correspondance auxquels un lot est adjugé ainsi que les adjudicataires présents auxquels la Maison DAVID FELDMAN S.A.

accorde l'autorisation expresse d'acquitter les montants dus après la vente, sont tenus de payer le prix d'achat et la commission due à réception de la facture de la vente aux enchères. Dans ce cas, la Maison DAVID FELDMAN S.A. conserve les lots adjugés qui ne seront remis à leurs acheteurs qu'à réception par la Maison DAVID FELDMAN S.A. du paiement intégral des montants dus. Sauf instructions spéciales de l'acheteur, l'envoi des lots s'effectue par la poste, la Maison DAVID FELDMAN S.A. assure, de manière usuelle, la marchandise pour le transit. Les lots, délivrés ou non, conservent titre de propriété de la Maison DAVID FELDMAN S.A. pour le compte du vendeur jusqu'au paiement intégral de la facture.

3.6 Facilités de paiement: La Maison DAVID FELDMAN S.A. accorde, selon sa libre appréciation, des facilités de paiement aux acheteurs. L'acheteur au bénéfice de telles facilités paie un montant minimum de 25% du montant total de la facture dès réception de celle-ci puis acquitte le solde encore dû en mensualités égales sur une période de 6 mois maximum. Un intérêt mensuel plus les frais encourus au taux de 1% sont perçus, à partir de la date de la vente, par la Maison DAVID FELDMAN S.A. L'intérêt est débité chaque mois au compte du client. En cas d'octroi de facilités de paiement, la Maison DAVID FELDMAN S.A. garde les lots adjugés jusqu'au paiement intégral des montants dus par l'acheteur, étant précisé que l'acheteur peut, en tout temps avant livraison, examiner la marchandise acquise auprès de la Maison DAVID FELDMAN S.A. Par ailleurs, l'acheteur perd tout droit de réclamation tel que prévu sous chiffre 4 ci-dessous, 30 jours après la date de la vente aux enchères.

3.7 Droit de gage: Jusqu'au paiement intégral du montant dû, l'acheteur confère à DAVID FELDMAN S.A. un droit de gage sur la totalité des lots gardés par DAVID FELDMAN S.A., acquis avant, pendant et/ou après la présente vente aux enchères. Ce gage garantit le remboursement de tout montant dû en capital, intérêts, commissions et frais éventuels. DAVID FELDMAN S.A. est autorisée, mais non obligée, à réaliser les gages sans autres formalités et sans préavis si l'acquéreur est en demeure pour le paiement de sa dette ou l'exécution d'une obligation quelconque. DAVID FELDMAN S.A. pourra dans tous les cas réaliser les gages de gré à gré. A cet effet, elle n'est pas tenue d'observer les formalités prévues par la Loi fédérale sur la poursuite pour dette et faillite; DAVID FELDMAN S.A. est libre en outre d'introduire ou de continuer une poursuite ordinaire, sans avoir préalablement réalisé les gages et sans renoncer pour autant à ceux-ci.

4. GARANTIE

4.1 Etendue de la garantie: Sous réserve de l'article 4.3 ci-après, l'authenticité de toutes les pièces philatéliques vendues aux enchères est garantie pendant 30 jours à compter de la date de la vente aux enchères. Toute garantie de défaut ou autre garantie de quelque nature qu'elle soit est expressément exclue. Toute réclamation concernant l'authenticité doit être transmise à DAVID FELDMAN S.A. dès réception des lots, mais au plus tard dans les 30 jours à compter de la date de la vente aux enchères. Avant la livraison, qui peut intervenir après ce délai de 30 jours, les pièces philatéliques acquises peuvent être examinées auprès de DAVID FELDMAN S.A. L'acheteur dont la réclamation parvient à DAVID FELDMAN S.A. après ce délai de 30 jours à compter de la date de la vente aux enchères perd tout droit à la garantie. Sa réclamation ne sera pas prise en considération par DAVID FELDMAN S.A. Si un délai supplémentaire pour formuler une réclamation liée à l'authenticité d'une pièce philatélique s'avère nécessaire, la demande doit en être faite à DAVID FELDMAN S.A. dans le délai de 30 jours à compter de la date de la vente aux enchères. Aucune demande parvenue après ce délai de 30 jours à DAVID FELDMAN S.A. ne sera prise en considération. Les résultats de l'expertise pour laquelle un délai a été accordé doivent parvenir à DAVID FELDMAN S.A. dans les trois mois à compter de la date de la vente aux enchères. Un délai supplémentaire ne peut être accordé qu'avec l'accord écrit de DAVID FELDMAN S.A. Seules les réclamations, résultats d'expertise ou autres notifications parvenues dans les délais seront pris en considération par DAVID FELDMAN S.A.

4.2 Expertise ou contre-expertise: Lorsque l'authenticité d'un lot est contestée l'acheteur est tenu de produire un certificat d'expertise ou de contre-expertise émanant d'un expert qualifié justifiant sa réclamation. Si l'expert reconnu, assumant toute responsabilité en cas d'erreur, juge que le timbre a été falsifié, il peut le marquer en conséquence; les signes "FAUX" ou "FALSIFIÉ" ne constituent pas alors une altération du lot. En présence d'une telle réclamation la Maison DAVID FELDMAN S.A. se réserve le droit de demander selon la libre appréciation une ou plusieurs expertises subséquentes dont les frais seront mis à charge du vendeur dans l'hypothèse où la réclamation de l'acheteur est fondée. Dans le cas contraire l'acheteur supportera tous les frais d'expertise encourus. Lorsque la réclamation est fondée, le lot est repris et le prix d'adjudication ainsi que la commission sont intégralement remboursés à l'acheteur. Dans le cas d'un paiement retardé dû à une expertise agréée par David Feldman S.A., des intérêts sont payables à 50% du taux habituel pour tout lot dont l'authenticité est confirmée. Si David Feldman S.A. n'est pas d'accord tous les intérêts seront dus.

4.3 Limites de la garantie: Les lots décrits comme collections, sélections ou groupes, ceux formés de doubles et d'accumulations, ne peuvent faire l'objet d'une réclamation quelconque. Les réclamations concernant les lots décrits comme série ou groupes de séries contenant plus d'un timbre, ne sont prises en considération dans les limites de l'article 4.1 ci-dessus que si elles portent sur plus d'un tiers de la valeur totale d'acquisition du lot. Les lots qui ont été examinés par l'acheteur ou son agent, ainsi que les lots qui sont décrits comme ayant des défauts ne peuvent faire l'objet d'aucune réclamation par rapport à ceux ci. Tout lot illustré ne peut faire l'objet d'aucune réclamation au sujet de la perforation, du centrage, des marges ou tout autre élément visible dans l'illustration.

4.4 Paiement tardif: Si le paiement du prix d'achat et de la commission due par l'acheteur n'intervient pas dans les 30 jours à compter de la date de la vente aux enchères, la Maison DAVID FELDMAN S.A. se réserve le droit d'annuler la vente et de disposer les paiements en souffrance d'au moins 5% dès le premier mois et 2% par mois supplémentaire. De plus, les dépenses encourues seront perçues sur toutes les sommes dues par l'acheteur 30 jours après la date de la vente aux enchères. Le débiteur défaillant perd en outre tout droit de réclamation.

4.5 Le prix d'adjudication pourra, exceptionnellement, être ramené à la mise gagnante la plus basse s'il est établi qu'un enchérisseur a augmenté le prix par inadvertance en utilisant plus d'un moyen de miser.

5. DROIT APPLICABLE ET FOR COMPETENT

La présente vente aux enchères ainsi que tous les rapports juridiques qui en découlent seront soumis au Droit suisse exclusivement. Toute action légale ou procédure concernant la vente aux enchères ainsi que les rapports juridiques qui en découlent seront soumis à la jurisdiction exclusive des tribunaux de Genève, sous réserve d'appel au Tribunal fédéral suisse à Lausanne. Dans tous les cas, la Maison DAVID FELDMAN S.A. se réserve le droit de poursuivre tout acheteur défaillant à son lieu de résidence, quel que soit le Droit Suisse reste applicable et dans les cas se rapportant à la valeur, l'euro est converti à son équivalent en francs suisses pendant la vente.

6. Toute transaction: Ces conditions sont applicables à toute transaction même en dehors des ventes aux enchères, avec David Feldman SA.

€ 1000 - 2000	€ 100	€ 50000 - 100000	€ 5000

Bids in between these steps will be adjusted accordingly to the next highest bid step. The bidder is bound by his offer until a higher bid has been validly accepted.

2.2 The Huisser Judiciaire together with DAVID FELDMAN S.A. have full discretion to refuse any bidding, to divide any lot or lots, to combine any two or more lots and to withdraw any lot or lots from the sale without any case giving any reason. DAVID FELDMAN S.A. may also bid on behalf of vendors in cases where reserve prices have been fixed. In these cases, the vendor is treated as a buyer and the auctioneer shall bid on his behalf up to reserve prices. If the reserve price fixed by the vendor is not reached the auctioneer passes to the next lot by a simple knock of the hammer.

2.3 Bid orders received by DAVID FELDMAN S.A. or on its website before the relative auctions have priority over room bids in the case of Live Room auctions. Clients giving bidding instructions to DAVID FELDMAN S.A. may make alternative offers and/or limit the total of their expenditure in advance. Bids marked "BUY" are considered as up to ten times the quoted estimate price where such exists. Bids made in other currencies than the advertised currency of the auction, will be converted into that currency at the market rate of the day of receipt by DAVID FELDMAN S.A. Bids are standing and hold good for at least 60 days from the auction period. DAVID FELDMAN S.A. reserves the right to invoice bidders up to the end of the 60 day period, payment being due immediately.

3. THE AUCTION

3.1 Live Room auctions are held under the control of the relative supervising authority at its location. The relative supervising authority has no liability. The auction will be held under the ministry of a "huisser judiciaire" of the Canton and Republic of Geneva. The currency of the auction is Euros.

3.2 Prerogatives of David Feldman S.A.: DAVID FELDMAN S.A. may withdraw, group differently, divide or refuse to knock down any lot. DAVID FELDMAN S.A. reserves the right to refuse any bid orders and/or for Live Room auctions, refuse admittance to the auction room, at its discretion, to anybody whosoever. DAVID FELDMAN S.A. cannot be held responsible for any physical accident that may occur on the premises where auctions take place.

3.3 Bidders' representatives and auction agents: Any person bidding for the account of a third party is fully liable for any obligation arising from such bidding. This responsibility is notably applicable for the verification of the condition and for the payment of bought lots

3.4 Adjudication: Each lot is sold on behalf of the respective owner to the highest bidder who becomes the buyer at the next highest bid step, which is the adjudication price. In addition to the adjudication price, the buyer pays an all-in fee of 19.5% to cover commission, charges and expenses including lotting fees, adjudication taxes, insurance, packing, mailing, export formalities etc. whether all incurred in particular cases or not. On the adjudication, liability for the lots passes to the bidder whose bids have been accepted. The lots are delivered to the buyer when the sale price (adjudication price plus all fees) have been paid in full

Exceptionally lots marked "*" at the end of the description are heavy in weight and mailing expenses, charged at cost, are extra. Buyers who give special mailing instructions are responsible for their own mailing costs.

VAT (Sales Tax) - Notes for guidance concerning auctions for which the lots are located in Switzerland: Buyers domiciled abroad are not liable for this tax once the goods are duly exported from Switzerland. DAVID FELDMAN S.A. are pleased to arrange this export; alternatively, clients may make their own arrangements and furnish DAVID FELDMAN S.A. with proof of export, stamped by Swiss customs. Any purchases by buyers who wish to keep their purchases in Switzerland will be liable to VAT at 7.6% of the purchase price in Swiss Francs at the converted Euro value during the auction.

3.5 Payment: Sale price plus commission are due for immediate payment as invoiced against delivery of the lots. Payment in other currencies is accepted at the rates of exchange of the day as quoted by a Swiss major bank. The bidders who are successful with whom it has been expressly agreed that they pay after the sale under special conditions, are due to pay the sale price and the commission according to those terms. In these cases, DAVID FELDMAN S.A. keeps the adjudicated

lots which are delivered to the buyers on full settlement of their account. Delivery of the purchased lots by post or any other means if instructed by the buyer including cost of normal transit insurance cover is at the expense of the buyer. Title or ownership of the purchased lots, delivered or not, remains with the auctioneer on behalf of the seller until payment has been made in full.

3.6 Special extended payment facility: DAVID FELDMAN S.A. may offer a special extended payment facility for buyers. In these cases, the buyer may choose to pay a minimum of 25% of the total invoice immediately, and the balance over a maximum period of 6 months, paying an equal instalment at the end of each month. Interest plus charges of 1% is debited to the buyer's account at the end of each month from the auction date. When the special extended payment facility has been granted, the buyer understands that any claims regarding his purchases must be made within 30 days of the auction sale date, even though the lots may be held by DAVID FELDMAN S.A. awaiting full settlement of the account. Until delivery, all lots may be examined by their respective buyers at the offices of DAVID FELDMAN S.A.

3.7 Pledge: Until full settlement of the account, the buyer grants to DAVID FELDMAN S.A. a pledge on any and all properties held by DAVID FELDMAN S.A., acquired prior to, during and/or after any auction. This pledge secures the repayment of any amount due in principals, interests, commissions, costs and other possible fees. DAVID FELDMAN S.A. is entitled, but not obliged, to realise freely the pledge assets without further formalities and without previous notice if the buyer is in default with the payment of his debts or with the fulfilment of any other obligation hereunder. For this purpose, DAVID FELDMAN S.A. is not bound to comply with the formalities of the Federal Law dealing with actions for debt and bankruptcy proceedings; in addition, DAVID FELDMAN S.A. may choose to institute or go on with the usual proceedings without having beforehand sold the pledged goods and without having moreover given them up.

4. GUARANTEE

4.1 Extent of the guarantee: Subject to paragraph 4.3 below, the authenticity of all philatelic items sold in the auction is guaranteed for a period of 30 days from the auction date, with the express exclusion of any other fault(s). Any reclamation regarding authenticity must come to the notice of DAVID FELDMAN S.A. on the delivery of the lots but at the latest within 30 days from that date. Before delivery, which may take place after the 30 days period, the lots purchased may be examined at the Geneva offices of DAVID FELDMAN S.A. The buyer whose reclamation is made after 30 days from the auction date loses all rights to the guarantee. Such reclamation will not be valid by DAVID FELDMAN S.A.. If an extension of the period is required in order to substantiate the claim with an expertise, a request for such extension must be made to DAVID FELDMAN S.A. within 30 days of the auction date. No request for extension will be considered beyond this 30 days period. The results of the expertise for which an extension was agreed must come to the notice of DAVID FELDMAN S.A. within 3 months of the auction date. No further extension of the period will be considered without the express agreement in writing of DAVID FELDMAN S.A. Only claims, expertise results or other details which are made within the agreed periods will be valid.

4.2 Expertise and counter-expertise: Should the authenticity of a lot be questioned, the buyer is obliged to provide an expertise or counter-expertise from a prominent expert in the field, justifying the claim. If a stamp is found by a recognised expert taking financial responsibility for errors to have been forged, he may mark it accordingly. Consequently, the marking "FALSCH" (forged) is not considered an alteration. In the case of such reclamation, DAVID FELDMAN S.A. reserves the right to request, at its own discretion, one or more further expertises. All expertise and relative charges accrue to the vendor's account in the case of a justified claim, or to the buyer's account if the claim is not justified. In the case of a justified claim, the lot is taken back and the adjudication price plus the commission are refunded to the buyer. In the case of delayed payment due to expertise agreed by David Feldman S.A., interest is charged at 50% the standard rate for all cleared lots. If David Feldman S.A. has not agreed then full interest is due.

4.3 Exclusions: Lots described as collections, accumulations, selections, groups and those containing duplicates, cannot be the subject of any claim. Claims concerning lots described as a set or groups of sets containing more than one stamp, can only be considered under the terms of paragraph 4.1 above if they relate to more than one third of the total value of the lot. Lots which have been examined by the buyer or his agent, lots described as having defects or faults cannot be subjected to a claim regarding defects or faults. Illustrated lots cannot be subjected to a claim because of perforations, centering, margins or other factors shown in the illustrations.

4.4 Late Payment: If the payment of the adjudicated price plus commission due by the buyer is not made within 30 days of the date of the auction, DAVID FELDMAN S.A. reserves the right to cancel the sale and dispose of the lot(s) elsewhere and/or to make a recourse to any legal proceedings in order to obtain payment of the amounts due as well as for any incurred damages and losses and any legal expenses. A charge on overdue payment of at least 5% for the first month and 2% per month afterwards plus expenses incurred is chargeable on any outstanding amount after 30 days of the date of the auction. The buyer who is in default in any way whatsoever has no right of claim under any circumstances.

4.5 Exceptionally, the adjudication price will be reduced to the lowest winning bid where it is shown that a buyer has inadvertently increased the price by using more than one medium of bidding.

5. APPLICABLE LAW AND JURISDICTION

Unless otherwise stated, all auctions as well as any rights and obligations arising from them shall be governed exclusively by Swiss law. Any legal action or proceeding with respect to the auctions shall be submitted to the exclusive jurisdiction of the courts of Geneva, subject to appeal to the Swiss Federal Court in Lausanne. In every case, DAVID FELDMAN S.A. shall also be entitled, at its discretion, to sue any buyer in default at his place of residence; in such case, Swiss law shall remain applicable and in the case of issues regarding price value, the Euro is converted at its Swiss franc value at the time of the auction.

6. All Transactions: These conditions apply to all transactions of every kind including those outside the auctions, with David Feldman SA
