# Introduction

It is the first time for our company to handle a property such as The United Nations Postal Administration archive. It presented a great challenge in terms of information, presentation and lotting. An explanation of our approach and procedure would seem appropriate.

## Information & Presentation

Seventy-four large boxes, over one ton of materials, sorted by issue and form, needed to be classified and counted. We needed a classification system. We contacted Jim Kloetzel, the editor of the Scott Catalogue, and suggested that if we followed Scott numbers and listing technique Scott might agree to list and to assign new numbers to individual types of proofs. This they kindly agreed to do. The task required three members of our staff to work for three months compiling and presenting the information in this catalogue.

## Scott Catalogue & collector interest

It should be noted that Scott catalogue editor has agreed to list ALL the U.N. Die Proofs, Imperforates and Progressives as listed, numbered and classified in the catalogue of the U.N. Archive, in the Scott Specialized Catalogue of US Stamps and Covers 2004. (see letter on page 7) It is therefore expected that there will be immediate demand for collectors to expand their collections into these aspects and such demand should continue to grow in the years to come.

## Issuing Authority

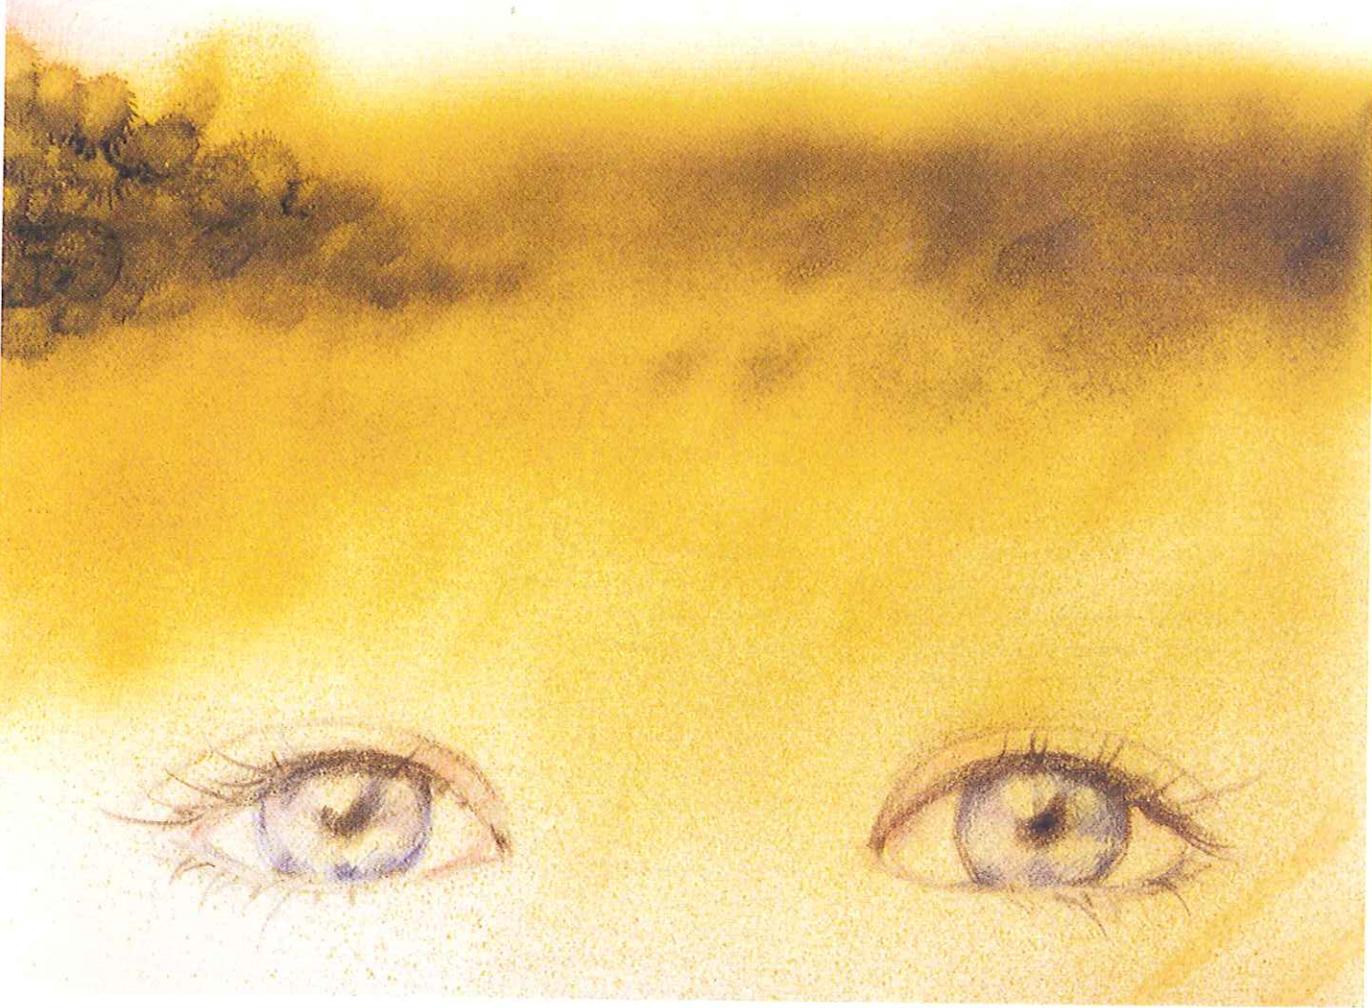

The UNPA is the Issuing Authority of the United Nations for stamp issues. This archive, unlike comparative auctions of printers' archives, is being offered for sale under the instruction of the UNPA, the issuing authority itself. Consequently the legitimacy of these materials is absolute and in this regard it can be argued on an equal footing with U.N. general issues. The UNPA letter reproduced in this catalogue goes even further; it confirms that this is all that exists!

All of these factors make this archive listing unique in philatelic history and not comparable to printers' archives.

We have been happy to meet the challenge of this kind of new work and publication by our company. We hope that our readers, collectors, and clients will find it equally interesting.

REFERENCE:

4 February 2003 .

Dear Mr. Feldman,

I hereby certify that to the best of my knowledge the items listed in this reference catalogue include all the Artwork, Imperforates, Die Proofs and Progressives and constitute ALL such form of items pertaining to the stamp issues and philatelic products produced by the United Nations Postal Administration (UNPA) from its first issue in 1951 through the year 2000.

I can furthermore confirm that having made a comprehensive search and request for any materials to all printers and producers of UNPA issues since 1951 that no other items exist.

The items are genuine UNPA property and are officially released for sale means of auction to the public. They constitute all known items to exist of this kind.

Yours sincerely,

Dear David,

It is with pleasure that we at Scott Publishing Company cooperate with your firm to bring the listings of United Nations Die Proofs, Progressive Proofs and Imperforate Proofs to the collecting public. We are happy to announce that catalogue listings for these proofs will appear for the first time in the 2004 edition of the *Scott Specialized Catalogue of United States Stamps and Covers*, which will be released in October 2003.

The consignment to your company of this entire group of interesting proofs presents us with the unique opportunity to provide a complete, detailed and accurate Scott catalogue listing, much to the benefit of our hobby. But it has only been through the cooperation of yourself and your staff in spending many extra hours supplying us with the detailed information necessary to compile the listings that the completion of this project was made possible. The collecting public owes you a debt of gratitude for helping to make these listings a reality.

Best wishes for a successful auction sale. We look forward to further cooperation in future projects.

Sincerely,

James E. Kloetzel

### The Reference Catalogue

This reference catalogue lists all items in the categories noted below being released to the philatelic market by order of the United Nations Postal Administration at public auction by David Feldman S.A., Geneva, Switzerland on May 12, 2003.

**Listings include:**

**Artwork**

Many kinds and formats used in the preparation of stamps issued.

**Die Proofs**

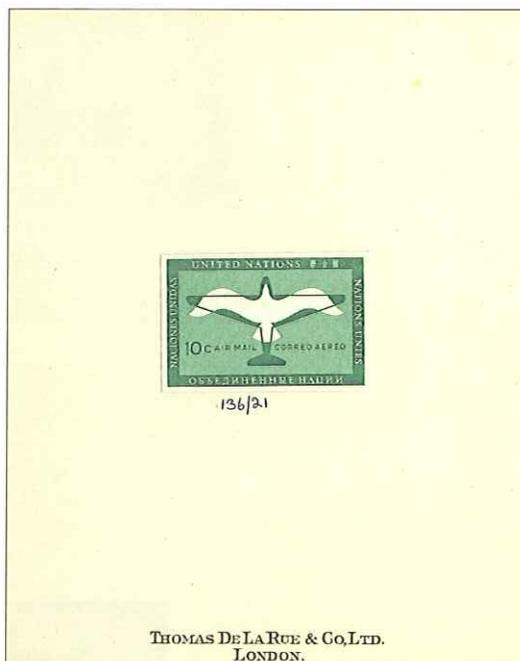

Original and final proofs usually in single imperforate format or sheet format duly stamped and signed as single or set.

**Progressive Proofs**

Individual forms and/or colours printed in separate sheets making altogether the complete and final stamp issue. Most of them, especially later issues, conclude with a sheet equivalent to the final stamp in a complete imperforate sheet. Many of the sheets carry security finger prints on reverse.

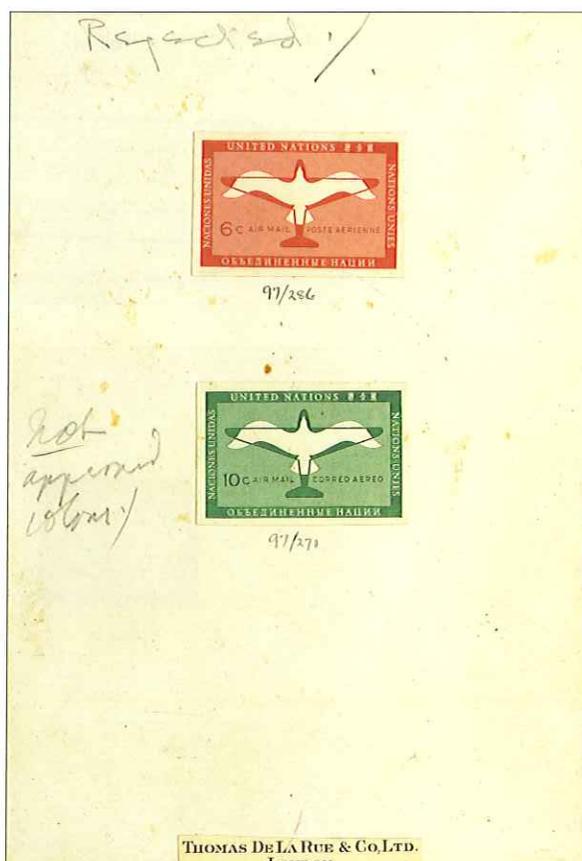

**Imperforate Proofs**

The final issued stamp or miniature sheet in complete imperforate sheet or multiple uncut sheets. Most of the sheets carry security finger prints on reverse.
