## How to bid live by Internet at the David Feldman auction

- PRACTICE by trying out the simulator preparing you for the LIVE auction
- REGISTER by choosing your own user name and password (you only need to register once - for all transactions)
- PRE BID by e-mailing your bids in advance in order to be sure not to miss lots. Pre bidding closes one day before the auction
- BID LIVE by simply following your lot on the screen and bid instantaneously with others worldwide
- C. SPECTATORS ONLY! Follow the auction, but without the possibility to hid

#### Bidders please note:

- Bidding normally starts in the auction room and the lot will be adjudicated ignoring the Internet unless an Internet bidder has been recognised before the last price is reached.
- Please click on the bid button as early as possible for your FIRST BID in the bidding as it may take a moment to connect via the server due to the different Internet connection speeds around the world. Once your bid is relayed the auctioneer notes an Internet presence and will delay the bidding at the end giving you a chance to finalise your bid.
- When and only when there is an Internet bidder the display will show GOING GOING GONE! in sequence confirming the end of the bidding. You must get your final bid through at the moment of the display of the first GOING.
- 4. Sometimes several Internet bids may be made at the same moment. The server accepts the first bid received and ignores the others at the same price. This explains why you may have bid but the next bid is NOT for you. Please bid again immediately.
- 5. Every Internet bidder is automatically awarded a credit limit of CHF 20'000. If more is required before the sale just send us an E-Mail at: "accounts@davidfeldman.com" mentioning the new desired credit limit During the sale you can ask to increase your credit limit through the 'Finance' page of the Live Auction Software. Please note that in this case a few minutes could be needed to receive the answer.
- 6. Because of persons who have missed lots because of auction speed, we strongly urge you to E-Mail us a listing of all lots or groups of lots on which you may bid (no obligation), so the auctioneer may be aware. We also suggest you to give us a phone number where we can reach you during the sale in case of any difficulties. If you need help in any way during the sale please contact our auction secretariat at: tel. + 41.22.727.0789, which will connect you with the suitable person.

"...my collection should be sold in USA or England for the best result but I prefer dealing with a Swiss Company like David Feldman as you have given me such good service over the years. Thank you for explaining and offering that my collection can be auctioned in New York, London and Geneva at the same time. It will be delivered to you at the appropriate time..."

#### november auction already includes

Cape of Good Hope (Court of Honour)

> Greece (Grand Prix)

Afghanistan (probably the world's best collection)

A new era in the history of auctions has arrived. **David Feldman Company** successfully launched for the first time in auction history, the MULTI ROOM auction, in December 2002.

From now on David Feldman has the unique facility to hold an auction in several places "live" at the same time. No other company in the world has yet developed or can offer such an advantage for both buyers and sellers.

November Auctions now in preparation, including multi-city auctions in London, Athens, Geneva and other centers depending on properties consigned.

David Feldman can now auction your collection where it sells best and if this includes several places, we can include them all, as well as taking advantage of Switzerland's financial, fiscal, and import/export structure as the base country of the offer.

## Participate at home "LIVE"

"I've been buying stamps and covers from auctions and dealers over 30 years and have now decided to sell my collection. My collection is international in nature with possible buyers everywhere. I was wondering how to go about making the best decision. I was particularly concerned where it should sell and with whom. My participation in your last auction by Internet assures me that the David Feldman company must be the right choice..."

David Feldman is still the only philatelic company in the world that presents its clients with the opportunity to bid "live" at its auctions by a simple click on the Internet.

Log in at www.davidfeldman.com and practice our simulation system to prepare yourself for online bidding in our next auction series.

Sellers can also follow the journey and result of their consignment and join in the excitement of participating in the sale of their property lot by lot as the auction hammer adjudicates each item.

# **Auction**: Bidding Agents

David Feldman SA are pleased to handle your bids, without fee, representing you as if you were present in the auction room, also by direct telephone line: +41 (0)22 727 0789.

However, if you would like to be represented by a professional bidding agent we list below for your convenience a number of persons who regularly bid at our sales on behalf of clients. (Further names of agents in other areas can be supplied on request.)

The expedition is expected to return to the States the last part of May, reaching New York about June 20.

There have been a great many volunteers for this expedition, which will be a very interesting Arctic experience, but I much prefer to man the expedition's steamer with personnel that has had naval experience.

I am therefore writing to ask if you would like to volunteer for this trip. If so, please let me know as soon as possible, as I must make my selection soon. Please outline your experience and qualifications.

If I pay the volunteers anything, it will be a small amount. You will, however, be lodged and boarded and your expenses will be paid.

This letter is no definite assurance that I will select you, but you will be given careful consideration should you volunteer. Please address your answer as per letter head.

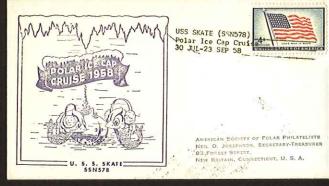

Sincerely, R.E. Byd. O

Chase a denoroledge primply.

# The "Argonaut" Museum Collection of Maritime History (Lot 60437)

We are pleased to offer for public auction, the most comprehensive collection of documents, covers, cancels & stamps pertaining to the Maritime World that we have ever offered in one lot.

This museum collection which represents all facets of the maritime world from ancient to modern times has been painstakingly put together over 30 years by a knowledgeable Greek collector. The collector has spared no expense in his attempt to acquire many of the rarer items, in most cases travelling from his base in Athens to attend international public auctions. The focus of these purchases was only for the highest quality, all items

are of course guaranteed genuine. Each item or series of items have been beautifully presented on individually printed pages & housed in forty-five deluxe volumes.

The collection has treated the maritime theme in a way that no other collection has, showing stamps or postal history from every country of the world that has ever has an association with the maritime world.

Vast arrays of different themes exist within the maritime world and are extensively dealt with in these forty-five volumes.

This collection is an encyclopaedic account of the maritime world through the eyes of a philatelist. The viewer of such a collection will find history, biographies of famous men, data of famous ships, geography, political events, breakdown of countries, creation of states, volcano eruptions affecting human settlements, pollution, disasters, wars, victories, defeats, archaeology, mythology, religion, art and all the above viewed through the maritime world.

It is a saga of world events at sea, from the early primitive crafts to the most modern ships of the 20th century. Those with a passion for everything that the sea has to offer will experience a vast and varied voyage throughout time and history, with important moments portrayed through stamps and postal documents, such as:

- 1) Christopher Columbus discovering the Caribbean and America.
- 2) The Vikings reaching the northern shores of America.

**ARMENIA** 

60981

\*\* \* 131 • 1919-22 The amazing stock of genuine stamps in singles, pairs and blocks, coming originally from the estate of S. D. Tchilinghirian and offered intact, in six stockbooks, neatly arranged in Michel catalogue order and beginning with a strong selection of Erevan and Alexandropol cancellations on stamps of Russia (including the Romanov issues and some higher Ruble values), then by overprint types (60k Surcharges, framed and unframed "Z," the "HH" monograms) in four volumes, plus an additional 2 volumes of the Soviet Republic Pictorials and Surcharges.

While half the catalogue value of the lot comes from quantities of the less expensive stamps (under DM 400.- each), the other half of the value derives from multiple examples (generally no more than 2 to 5 each) of the key stamps of the period (cataloguing roughly 1'000.- to 4'500.- DM each). Nearly all of these have been examined or expertized, primarily by P.T. Ashford (Tchilinghirian's collaborator on the Armenia handbooks) or by Romeko (while alive and in possession of his full faculties) or others.

The stockbooks are a brilliant classification and presentation of every issue based on years of research, including photocopies of key pages from both the handbooks of Tchilinghirian/Ashford and Dr. Ceresa. an original set of the former handbooks (of 100 made) is included in the lot. Where a stamp or variety is not listed by Michel, a very modest price in DM is interpolated, usually from other catalogues.

Only a small percentage of the total stock is used, and a large part of the rest is never hinged, in perfect quality. This section includes many very elusive stamps with so-called "counter" overprints (applied to stamps handed in by the public, incl. issues not then available in the post office stocks). There are some overprint and surcharge varieties (doubled, inverted) included throughout. The illustration of a very small selection is intended only to whet the appetite, and cannot begin to do justice to the scope and breadth of this portion of the holding. By comparison, the Soviet Republic period is far less valued but no less valuable, with inverted centers of the Unissued set, many multiples of the Pictorial sets, and a small but important group of surcharges.

For anyone attempting to form a specialized collection of Armenia, this lot is an invaluable resource for the 1919-21 Dashnak Government issues, demonstrating the ranges of impressions of the genuine overprints on both normal and "unofficial" issues, with blocks or other multiples present for a majority of the normally issued values. To our knowledge, no similar stock of such provenance and authority has ever appeared on the market in modern times, and the buyer will have a near-monopoly on the available examples of the genuine rarities of the 1919-21 period. Careful examination will clearly show the wide distribution of the total catalogue value of well over DM 500'000.- and will confirm the impeccable quality and authenticity throughout.

An utterly phenomenal holding of Armenia, absolutely impossible to envision replicating from all the collections of Armenia extant world-wide (Est. SFr. 150'000/200'000)

60982 E ⊞

1921 Socialist Republic Pictorial Issues (the first stamps ever to show Armenian scenes and symbols), the exquisite collection of 15 different full sheets (totalling 1'462 stamps) of the original printers' proofs for the issue, printed on high quality chalk-surfaced papers, and ranging in size from 135 stamps (for the 1r) to 64 (for the 25'000r) in the varying formats as prepared. All values are represented except the 15'000r (which undoubtedly no longer exists in this form).

This holding, which once graced the fabled holdings of the late Fritz Billig, is without parallel in Armenian philately, and would be the centerpiece of any collection or exhibit of this period. The sheets show evidence of one central vertical fold (with sheets of two lower values completely separated along said folds), otherwise they are fresh and pristine.

A remarkable opportunity to obtain the UNIQUE surviving original proof sheets of the first truly Armenian stamps ever issued (Est.SFr. 100'000/150'000)

60983	**	1922 Handstamped Surcharges on 1921 Pictorial Issues, incredible holding, offered intact, of 9 complete or largely complete sheets (some rejoined from right and left halves) of different imperforates and 2 different perforated, a total of 8 diff. stamps (and over 780 stamps in all), with both "short" and "tall" surcharges represented, including (most notably) Mi. 142b (140 of 144 positions), two rejoined sheets of 153a, and rejoined sheet of 154a III (complete inventory, with catalogue values, included in the lot).  This is an important treasure for anyone planning to exhibit this area, as 7 of the multiples show OVERPRINTS OMITTED OR DOUBLE. Thus, the total holding is far more important for a collector or exhibitor than simple catalog value might suggest (Mi. DM 147'160) and is perhaps the reason why the multiples were preserved intact, originally in the hands of legendary dealer and expert Fritz Billig. (Est. SFr. 50'000/75'000)	Offer

#### UNUSED

This stamp unused and with the many colour differences belongs to the rarest Duloz stamps and is much undervalued in the catalogues besides the fact that only a few colours are listed. In the Michel only one colour ([grey-shlee) is listed. At least 12 to 15 colours can be found, besides the different local papers and ink used! To assemble this section took more than 25 years of searching worldwide.

**61546** (☑) 1912 Registered Cover front bearing 5öre x 4 cancelled STOCKHOLM STADIUM **10'000** 

(without LBR) 29/6/1912, the First Day of the Games. The item bears also the very rare registration label "Stadium 5" sent for local delivery in Stockholm. A 5öre stamp was removed by the Postmaster and marked "=0" when he realised the item was for the local delivery only which was at the reduced tariff of 5öre instead of 10öre while the registration fee of 15öre remained the same. (Note: The stamp had to be removed since the charge had to relate to the actual postage as accounted for in the postmaster's daily records. The "=0" is a special sign to show that it's the Postmaster who has removed the stamp.) This is one of the very few registered items known and of course unique with this story. Cert. Obermuller (See also article "I Giochi della V Olimpiade Stockholm 1912" No. 4, by Franco Canepa and Manfred Bergman in which this item is highlighted.)
